

Mentor

1. Overview

Mentoring in Bsharp Converse allows users to create, assign, and track mentoring tasks to help individuals or teams learn new skills or improve existing ones. Mentors can assign tasks, monitor progress, add feedback, and manage mentoring sessions using categories, skills, sub-skills, due dates, and AI Copilot support.

2. When to Use

- When you want to guide team members in learning a new skill or improving an existing skill.
- When mentors need to assign structured tasks with timelines and tracking.
- When managers or trainers want visibility into mentoring progress and outcomes.
- When mentoring sessions need to be reused using templates.

3. Concepts

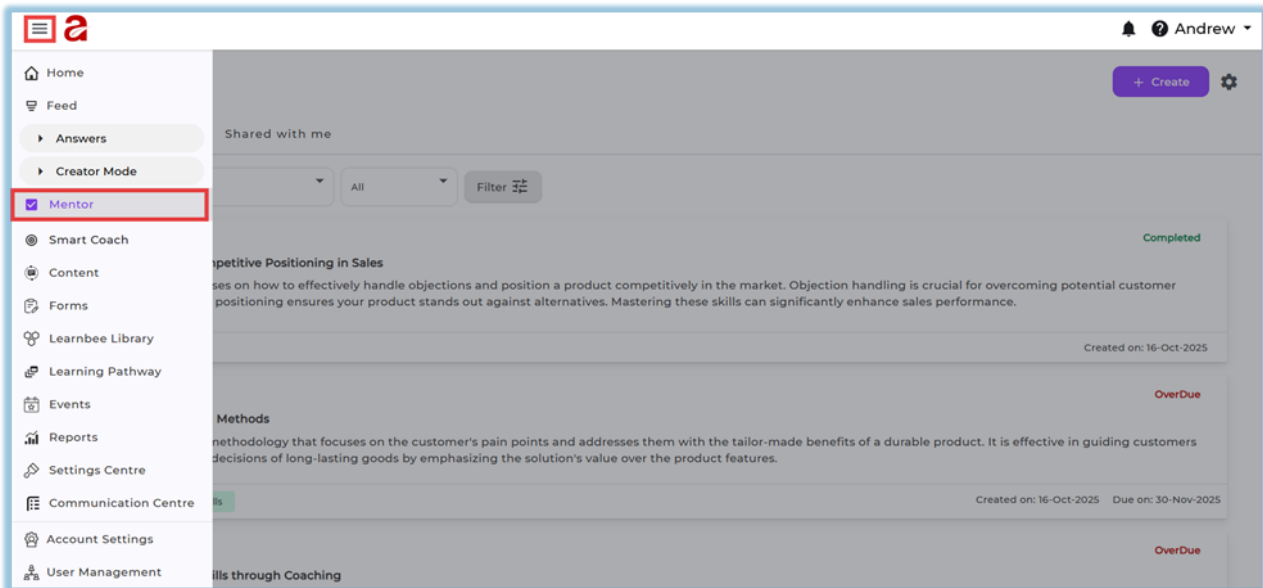

- **Mentor** - The user who creates and assigns mentoring tasks.
- **Assignee** - The user who receives and completes the mentoring task.
- **Observer** - A user added to monitor the mentoring task without performing it.
- **Tasks** - Action items created as part of a mentoring session.
- **Sub Tasks** - Smaller steps added under a task.
- **Categories** - High-level classification of the mentoring topic.
- **Skills and Sub-Skills** - Skill mapping used to track learning focus.
- **Session Status** - The current state of a mentoring task (Unread, In Progress, Completed, Dropped, Overdue).
- **Templates** - Saved mentoring sessions that can be reused.

4. Set Up Guide

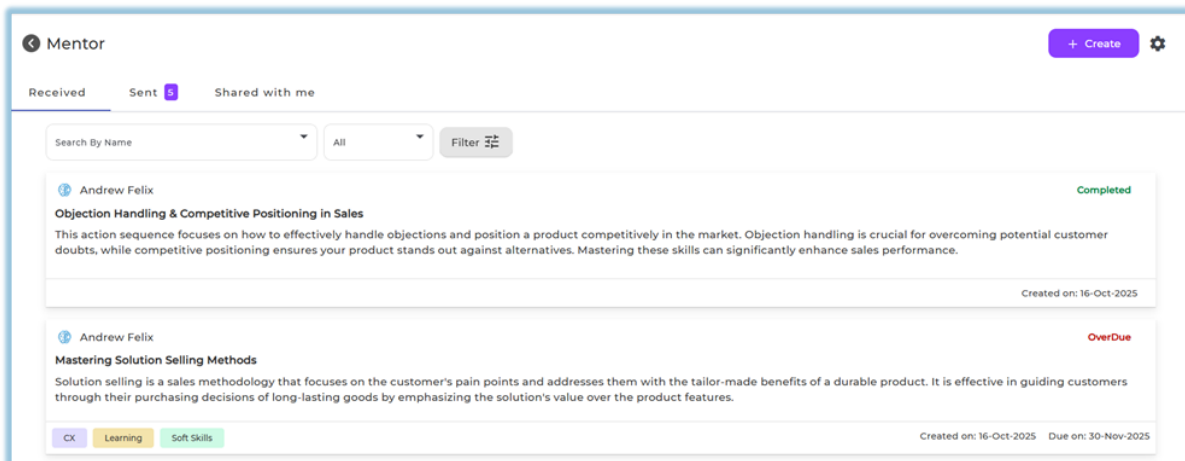

Navigation

1. Click the **menu bar** on the left side.
2. Select **Mentor** from the menu.

<https://converse.bsharpcorp.com/celebrate/feedbacks/list>

3. The Mentor page opens with three tabs:
 - **Received** - Displays mentoring tasks assigned to you for completion.
 - **Sent** - Displays mentoring tasks you have assigned to others.
 - **Shared with me** - Displays mentoring tasks where you are added as an observer for visibility.

Create Categories, Skills, and Sub-Skills (Optional Setup)

4. Click the **settings icon** on the top-right of the Mentor page.

Andrew Felix Completed
Objection Handling & Competitive Positioning in Sales
 This action sequence focuses on how to effectively handle objections and position a product competitively in the market. Objection handling is crucial for overcoming potential customer doubts, while competitive positioning ensures your product stands out against alternatives. Mastering these skills can significantly enhance sales performance.

Andrew Felix OverDue
Mastering Solution Selling Methods
 Solution selling is a sales methodology that focuses on the customer's pain points and addresses them with the tailor-made benefits of a durable product. It is effective in guiding customers through their purchasing decisions of long-lasting goods by emphasizing the solution's value over the product features.

Create a Mentoring Session

8. Click **+ Create** on the Mentor page.

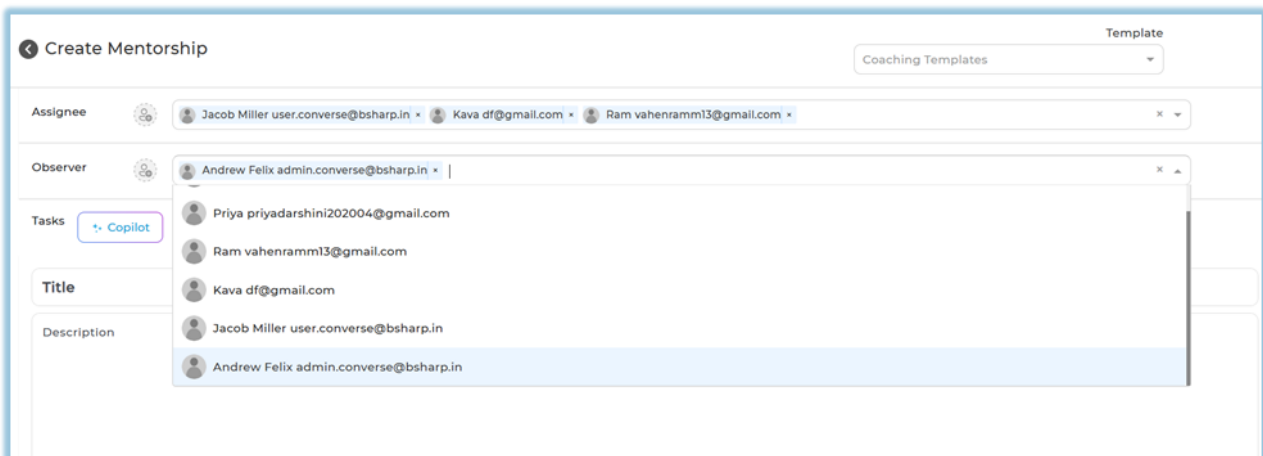

9. The **Create Mentorship** page opens.

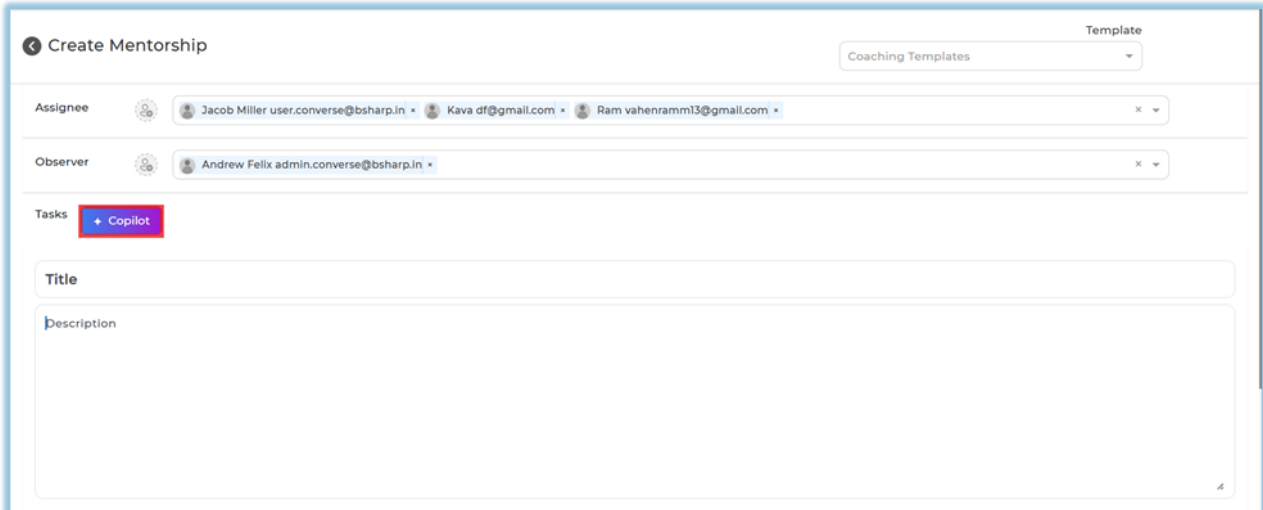

Assign Users

10. Select **Assignee** to choose one or more users who will receive the task.
11. Select **Observer** to add users who should monitor the task.

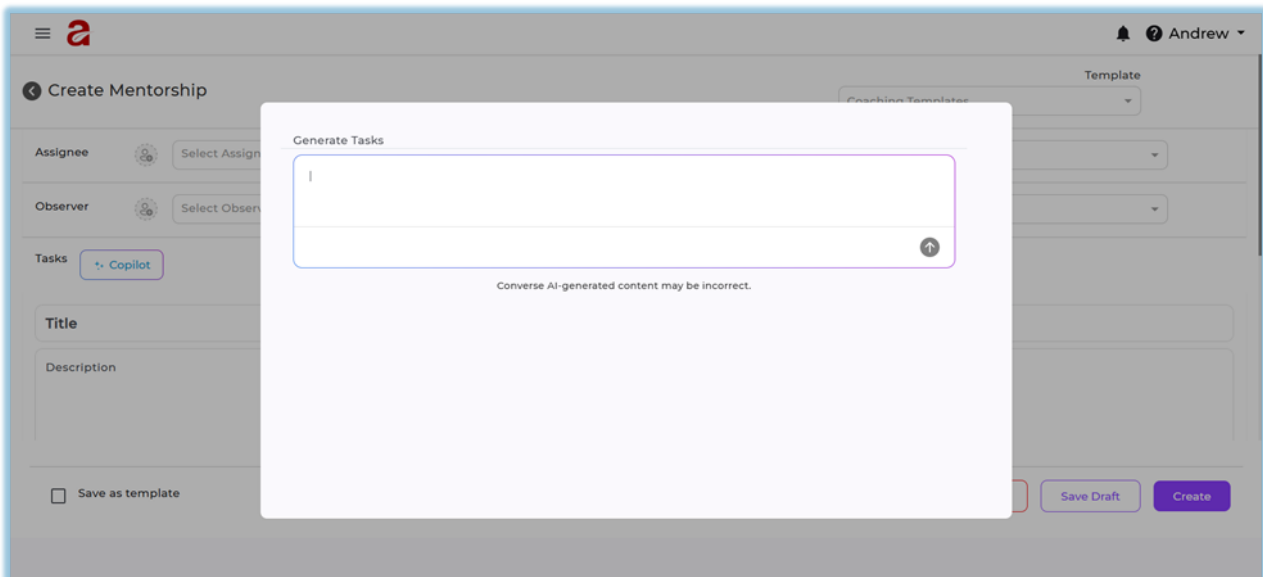

Add Tasks

12. Enter the **Title** and **Description** manually
or
13. Click **Copilot** under **Tasks**.

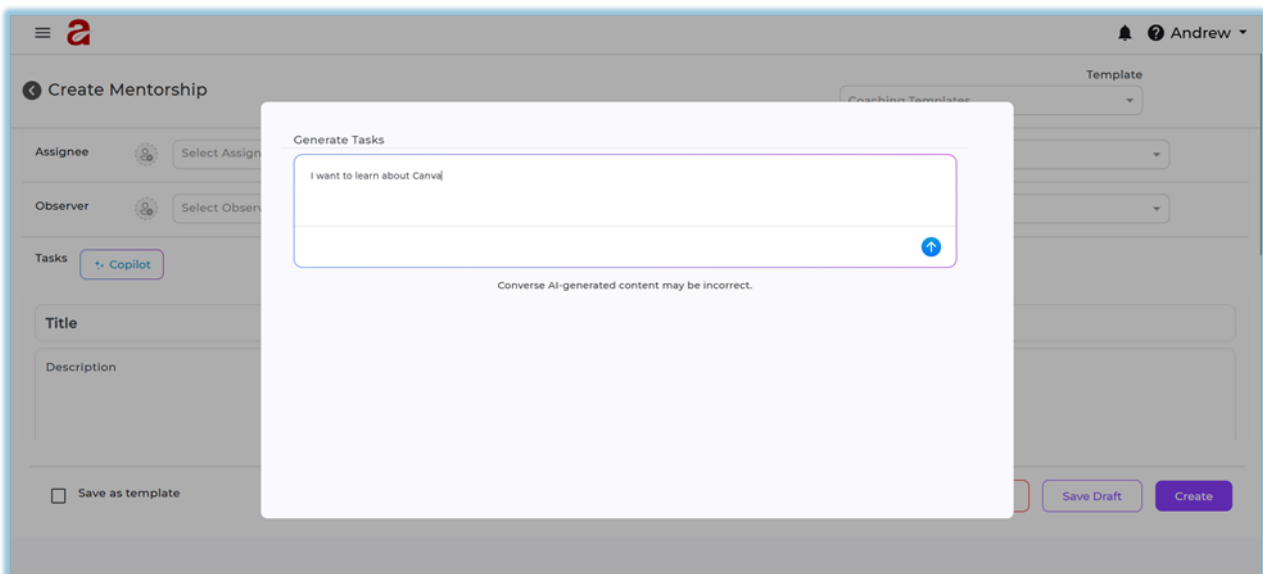

The screenshot shows the 'Create Mentorship' form. At the top right, there is a 'Template' dropdown menu set to 'Coaching Templates'. Below this, there are fields for 'Assignee' (with three selected users: Jacob Miller, Kava df, and Ram vahenramm13) and 'Observer' (with one selected user: Andrew Felix). The 'Tasks' section has a '+ Copilot' button highlighted in red. Below the 'Tasks' section are two text input fields labeled 'Title' and 'Description'.

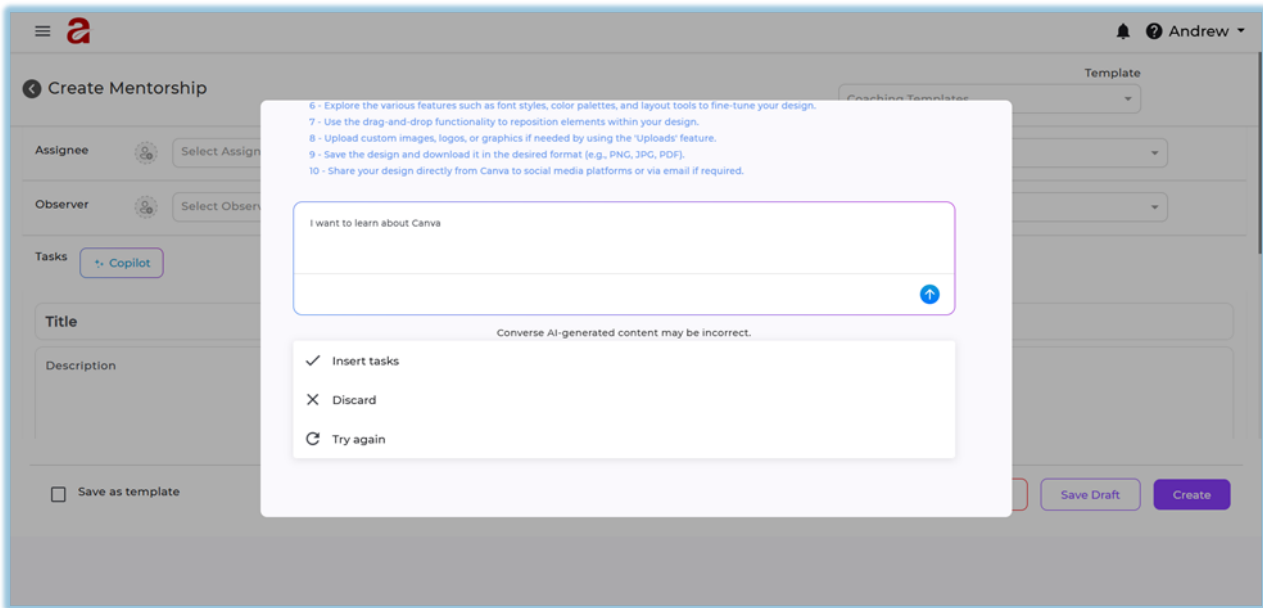

The screenshot shows the 'Create Mentorship' form with a 'Generate Tasks' modal open. The modal has a text input field with a cursor and an upward arrow icon. Below the input field is a disclaimer: 'Converse AI-generated content may be incorrect.' The background form is dimmed, showing the 'Assignee', 'Observer', and 'Tasks' sections. The 'Copilot' button is visible in the 'Tasks' section. At the bottom of the form, there are buttons for 'Save as template', 'Save Draft', and 'Create'.

14. Enter a topic (for example: *I want to learn about Canva*).
15. Click the **arrow icon** to generate tasks.

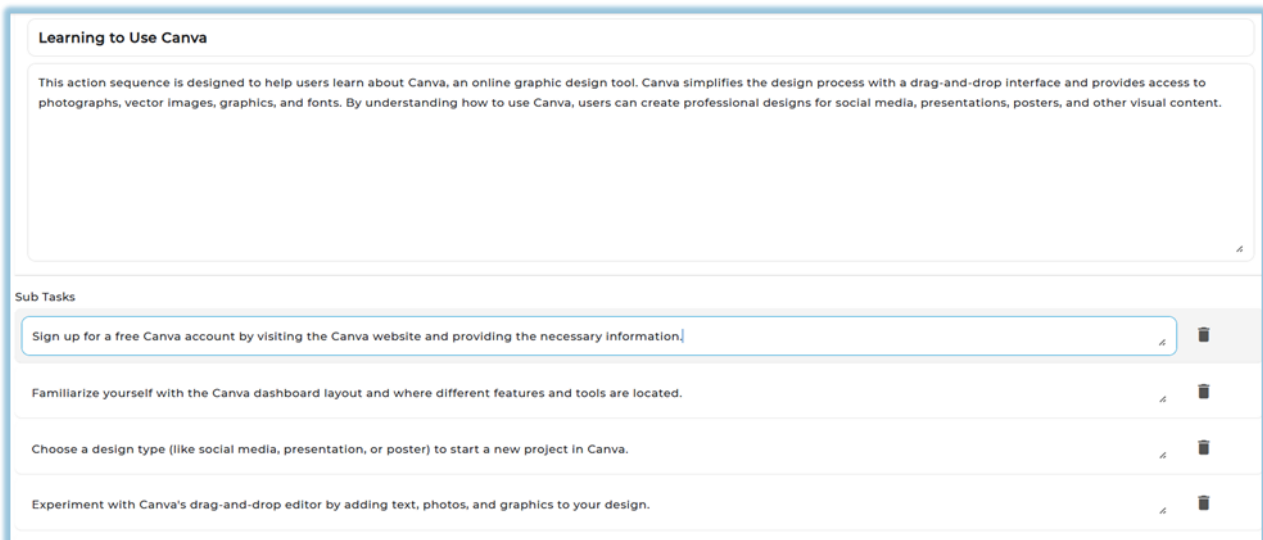

The screenshot shows the 'Create Mentorship' form with the 'Generate Tasks' modal open. The text input field now contains the text 'I want to learn about Canva'. The upward arrow icon is now blue. The background form is dimmed, showing the 'Assignee', 'Observer', and 'Tasks' sections. The 'Copilot' button is visible in the 'Tasks' section. At the bottom of the form, there are buttons for 'Save as template', 'Save Draft', and 'Create'.

16. After tasks are generated, choose one of the following options:
 - a. **Insert tasks** – Adds the generated tasks to the mentorship.
 - b. **Discard** – Removes the generated tasks.
 - c. **Try again** – Regenerates tasks for the same topic.

Manage Tasks

17. Edit generated tasks if required.
18. Add tasks manually if needed.

19. Add **Sub Tasks** using **Add Sub task**.
20. Delete tasks or sub-tasks if required.

Add Classification and Due Date

21. Select **Category**.

22. Select **Skill** and **Sub Skill**.
23. Select **Company Value**.
24. Set the **Due Date**.

The screenshot shows a form with the following fields:

- Category: CX
- Skill: Knowledge
- Sub Skill: Reference
- Company Value: Learning
- Due Date: 17/Jan/2026

Save or Create

25. Choose one of the following options:

- **Cancel** - Discards the session.
- **Save Draft** - Saves the session to complete later.
- **Create** - Creates and assigns the mentoring task.

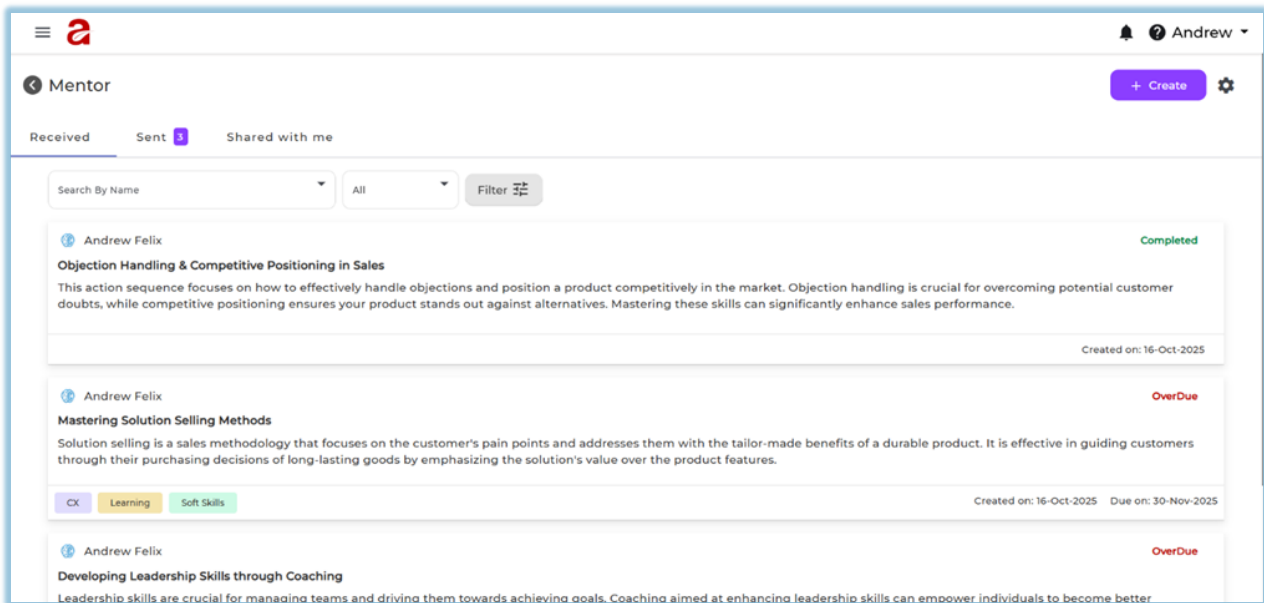

The screenshot shows the same form as above, but with additional options at the bottom:

- Save as template
- Cancel
- Save Draft
- Create

26. Enable **Save as template** if the session should be reused.

5. User View

- Assigned users see the mentoring task under the **Received** tab.
- Mentors see created tasks under the **Sent** tab.
- Observers see tasks under **Shared with me**.

- Task cards display title, description, tags, created date, due date, and status.

6. Reporting

Mentoring progress is visible directly within the Mentor module using session status and filters. Mentors can track task states such as **Unread**, **In Progress**, **Completed**, **Dropped**, and **Overdue** from the Sent tab.

7. Best Practices

- Use clear titles and descriptions for mentoring tasks.
- Assign realistic due dates.
- Use templates for repeated mentoring scenarios.
- Map tasks to skills and sub-skills for better tracking.
- Review overdue and dropped sessions regularly.

8. Related Links / FAQs

Q: What happens when a task is marked as Skill Acquired?

A: The mentoring session is considered completed.

Q: What does Dropped mean?

A: The mentor has ended the mentoring session.
